LET'S TALK ENERGY Worksheet 2

Energy Policy

Scotland aims to have Net Zero carbon emissions by 2045.

What do you think Scotland should do to reduce carbon emissions?

You are going to create your own Energy Policy for Scotland, which is on a path to Net Zero by 2045.

Using the Policy Actions Sheet, choose 3 policy actions that you would prioritise for Scotland. Complete the table to show and explain your choices.

Policy action number	Why would you prioritise this policy action?

Use the space below to include any other policy actions that you would include in your Energy Policy.

Using the Renewable Technologies Sheet, rank the 4 renewable energy technologies in the order that you would prioritise them for Scotland.

Rank	Renewable Technology
1	
2	
3	
4	

Why did you choose this order?
