LET'S TALK ENERGY Worksheet 1

Renewable Technologies

During Let's Talk Energy you will take on the role of policy-makers deciding what policy actions you would choose for Scotland on a path to Net Zero by 2045.

1. What does 'Net Zero' mean?

2. There are many actions that need to be taken to achieve this goal across different parts of society, and it won't be simple. We need action from individuals, businesses, and from government.

There are several renewable technologies that Scotland could spend money on, in an effort to reach Net Zero. Complete the table below with the Big Questions that you aim to answer, and carry out your own research to answer them.

Big Question 1.			
Onshore Wind	Offshore Wind	Solar Power	Green Hydrogen
Big Question 2.			
Onshore Wind	Offshore Wind	Solar Power	Green Hydrogen
